

CINNAMON STREET

F#m E B A

Growing up on Cinnamon Street
Everywhere you look there are lots of people to meet
It's seven o'clock, the breakfast treat
Now the schoolbus is here, hurry up and grab a seat

F#m E B A

All the dreams are tiny ones
Another week has just begun on Cinnamon Street

F#m E A B

There was a girl on Cinnamon Street
The same age as me, we shared the curiosity
I won her heart 'cos I could play guitar
She promised me heaven at once and later all the stars

F#m E B A

But it all remained the same
'cos things can never change on Cinnamon Street
I can hear my heartbeat the very first time we made love

Life was a lazy rest in the sun
Later we went dancing, staying up all night long
Playing all our favourite songs: Cinnamon songs... Oh oh na na na na na

F#m E A B

I say goodbye to Cinnamon Street
Springtime is here and the air is so dry and sweat
I walk in a cloud, the smell of cinnamon bread
It's in my blood since the day I was born 'til I wake up dead

F#m E B A

And the sun is smiling gently
A funny shade of red, Cinnamon Street
I still feel my heartbeat the very first time we made love

Life was a lazy day in the sun
Later we went dancing, hanging out all night long
Singing all our favourite songs: Cinnamon songs... Oh oh na na na na na

FINGERTIPS

E A D G (x2)

You're sliding down a dream, oh yeah
Where nights are born in blue, that's the truth
You're swimming in a stream, oh yeah
Fish are jumping too, next to you
Suddenly you notice someone's at the door
You could swear you've been through this all before

Then she runs her fingertips through your hair
Your life has just begun
Her fingers, they are ev'rywhere
You're floating light like air
Leaving the ground and she shines on just like the sun

You're gazing at the sky, oh my
The stars are out tonight, shining bright
You're waving to a cloud, bye bye
You're drowning in the smile of his eyes
Suddenly you feel there's no time for a deal
Though a voice tells you it's for real

And she runs her fingertips through your hair
And life has just begun
Her fingers, they are ev'rywhere
You're floating light like air
Leaving the ground she-she shines on just like the sun

It's just a sunny afternoon
Somebody's singing songs of love, child
You love a lazy afternoon once in a while

Then she runs...

solo (D Bm A G) X2

HOW DO YOU DO!

I see you comb your hair and gimme that grin
it's making me spin now, spinnin' within
before I melt like snow I say "Hello how do you do"

I love the way you undress now, baby begin
do you caress, honey my heart's in a mess

I love your blue-eyed voice
like Tiny Tim shines thru, how do you do

Well, we are crackin' jokes in the corner of our mouths
and I feel like I'm laughing in a dream. If I was young

I could wait outside your school 'cos your face is like
the cover of a magazine

How do you do (do you do) the things that you do

No one I know could ever keep up with you

How do you do! Did it ever make sense to you to say
bye bye bye?

I see you in that chair with perfect skin
Well, how have you been, baby, livin' in sin?
Hey I gotta know, did you say hello, how do you do? ...solo...

Well, here we are spending time in the louder part of
town and it feels like everything's surreal. When I get
old I will wait outside your house 'cos your hands have
got the power meant to heal

How do you do (do you do) the things that you do

No one I know could ever keep up with you

How do you do! Did it ever make sense to you to say
bye bye bye?

How do you do (do you do) the things that you do

No one I know could ever keep up with you

How do you do! Did it ever make sense to you to say
bye bye bye?

IT MUST HAVE BEEN LOVE

Lay a whisper on my pillow, leave the winter on the ground
I wake up lonely, there's air of silence
in the bedroom and all around
Touch me now, I close my eyes and dream away

It must have been love but it's over now
It must have been good but I lost it somehow
It must have been love but it's over now
From the moment we touched 'til the time had run out

Make believing we're together
that I'm sheltered by your heart
But in and outside I've turned to water
like a teardrop in your palm
And it's hard winter's day, I dream away

It must have been love but it's over now
It was all that I wanted, now I'm living without
It must have been love but it's over now
It's where the water flows, it's where the wind blows
It's where the wind blows

It must have been love but it's over now
It was all that I wanted, now I'm living without
It must have been love but it's over now
It's where the water flows...

NEVER IS A LONG TIME

You build it up and tear it down^B
there's no reason to follow you^{G#m}
You left the song without a sound^B
You left the story I made for you^{G#m}
Softly angels bow and cry in the stillness of the night^{E F#(7)}

Never is a long time, goodbye, no answers for the asking^{B E C#m F#}
It's a long time, goodbye, no mercy for the aching^{B E C#m F#}
It's a long time, oh I see no light on the forsaken^{B E}
Never is a long time, goodbye^{C#m F# B}
Let's spend the night when this dream has come to an end

Sometimes you laugh, sometimes you cry^B
And yes I've cried over you^{G#m}
You've left me blind in paradise^B
You've left me hungering for the touch of you^{G#m}
Snow white angels run and hide in the blackness of the night^{E F#(7)}

Never is a long time, goodbye, no answers for the asking^{B E C#m F#}
